FOR IMMEDIATE RELEASE-December 8, 2009

Beaver Water District Earns Design Award

The Arkansas Chapter of the American Society of Landscape Architects presented Beaver Water District with an Award of Merit recognizing excellence in landscape design for its new Administration Center in Lowell. Dave Roberts, ASLA, of Crafton, Tull and Sparks provided the landscape design for the project. Beaver Water District supplies drinking water to more than 250,000 people and industries in Fayetteville, Springdale, Rogers, Bentonville and surrounding areas. These cities then resell the water to surrounding towns and communities. The District's mission is to serve our customers in the Benton and Washington County area by providing high quality drinking water that meets or exceeds all federal and state regulatory requirements in such quantities as meets their demands and is economically priced consistent with our quality standards.
